

Manor Primary School

Year 1 Curriculum Update: Autumn Term

Maths

This term, we will be exploring place value within 20 through lots of fun, practical activities! We will sort and count objects, count on from different numbers and read numbers as words. The children will discover one more and one less and compare numbers using mathematical vocabulary such as more, fewer, greater than, less than and equal to. We will also practise ordering numbers and begin using number lines to support our understanding.

English

This term, we will be diving into the exciting world of The Tiger Who Came to Tea! We will explore what makes a sentence, while developing our understanding of nouns and verbs. The children will then put their new writing skills into action as they retell the Gingerbread Man, creating their own sentences independently and building confidence as young writers.

Science

This term, we will become scientists as we explore the fascinating world of Animals including Humans! We will discover how our bodies work and investigate our five senses and the body parts that help us to see, hear, smell, taste and touch. We will also explore different animals and their amazing features, learning how they can be grouped as carnivores, herbivores, omnivores and discovering their similarities and differences.

History: This term, we will become history detectives! In Autumn 1, we will explore our own personal histories and discover how childhood has changed over time.

We will then investigate Guy Fawkes and the Gunpowder Plot, discovering what happened in 1605 and why we celebrate Bonfire Night today.

Art: This term, we will explore portraits, developing skills to create our own. We will study Picasso's unique style and techniques, experimenting with different ways to create expressive artwork.

DT: In DT, we will design and create our own moving picture cards, exploring exciting mechanisms such as levers, pivots and wheels.

PSHE: In PSHE, we will use Jigsaw Jack to explore "Being Me in My World", learning about feeling safe and special, our class, rights and responsibilities, rewards, pride and consequences.

Phonics: In Phonics, we will recap our Phase 3 and 4 sounds before embarking on Phase 5! The children will learn new sounds and tricky words, building their reading confidence.

PE: This term, it's all about control and accuracy! We will develop our physical skills through ball activities. We will also explore dance, creating movements, sequences and performing together.

Computing: We are excited to begin Purple Mash! Children will explore Creative Computing and Data Explorers, developing their digital skills.

RE: This term, we will explore "Caring for the World", learning about friendship, thankfulness, stewardship and different beliefs, while celebrating our uniqueness and special place in the world.

Music: We will have lots of fun exploring music through our senses and the wonderful world of Carnival of the Animals!
